### RACGP Foundation Family Medical Care Education and Research (FMCER) Grant 2024

The Family Medical Care Education and Research (FMCER) grants have been offered by the RACGP since 1980. The aim of the grant is to encourage and support general practitioners in the early stages of their research career to conduct research into an aspect of primary health care. The objective of the grant is to advance education in, and research into, medical knowledge and science.

**This grant is made available by donations from the RACGP and RACGP members.**

#### Before you start

**Please note: This application form must be read in conjunction with the [Information for Applicants](#), which includes the *Grant Application Terms and Conditions*. Please ensure you have read this information before completing and submitting your application to ensure that you have fulfilled all requirements.**

#### Grant details

The Family Medical Care Education and Research (FMCER) grants are available for a 12 month period to provide new and emerging GP researchers with an opportunity to conduct research. Funding of up to \$20,000 (excluding GST) is available for research that benefits primary health care. Two grants are available.

##### Eligibility

To be eligible for an FMCER grant, the principal investigator must be:

- a general practitioner or general practice registrar; and
- an early career researcher.

Additionally, the project must relate directly to general practice.

##### Selection criteria

Applications will be assessed against the following criteria:

- training potential for applicants 20%
- scientific quality of the proposed research project 30%
- significance and either originality or innovation 20%
- feasibility of carrying out and completing the research in a one-year timeframe 10%
- value for money 10%
- potential to build capacity in general practice research 10%

Applications must be submitted by **Wednesday 1 May 2024, 5.00pm (AEST)**. For more information email [foundation@racgp.org.au](mailto:foundation@racgp.org.au)

You may begin anywhere in this application form. Please ensure you save as you go. If you need more help using this form, download the [Help Guide for Applicants](#) or check out [Applicant Frequently Asked Questions \(FAQ's\)](#).

On every screen (page of the form) you will find a Form Navigation contents box, this links directly to every page of the application. Click the link to jump directly to the page you want. You can also click 'next page' or 'previous page' on the top or bottom of each page to move forward or backward through the application.

If you wish to leave a partially completed application, press 'save' and log out. When you log back in and click on the 'My Submissions' link at the top of the screen, you will find a list of any applications you have started or submitted. You can reopen your draft application and start where you left off. You can also download any application, whether draft or completed, as a PDF. Click on the 'Download' button located at the bottom of the last page of the application form.

You will find a **Review and Submit** button at the bottom of the Navigation Panel. You need to review your application before you can submit it, by clicking on 'Submit' at the top of the screen or on the navigation panel. You will not be able to submit your application until all the compulsory questions are completed.

Once you have submitted your application, no further editing or uploading of support materials is possible. You will receive an automated confirmation email with a copy of your submitted application attached. This will be sent to the email you used to register.

**If you do not receive a confirmation of submission email then you should presume that your submission has NOT been submitted.**

## Research question / Aim of the project

### Research question

**In this section clearly and succinctly state your research question(s). If using a quantitative assessment in this study please specify the hypothesis which the study aims to assess.**

Word count:

Must be no more than 200 words.

### Research Plan

**This is the main information upon which the scientific quality of the proposed research project will be assessed. This section describes the research design in detail including:**

- the type of study method (e.g. a cross-sectional study, a randomised controlled trial, a qualitative study). Include sufficient details to demonstrate the scientific quality of the study design and methods
- how participants will be recruited
- how many participants are required and why (including sample size calculations if this is a quantitative study)
- what outcome measures will be measured
- what other factors might be measured
- how the data will be analysed.

Word count:

Must be no more than 2000 words.

### Do you wish to upload any figures, tables or diagrams?

☐ Yes ☐ No

Should you wish to insert figures, tables or diagrams, you may submit this as a separate document. Please label these appropriately (eg Figure 1, research plan) and ensure you

### Research team

**In this section, describe the team of people who will be involved in your research. Please state the role of each named investigator and describe how their expertise is expected to contribute to the project and why they are a suitable partner to this grant. You will need to demonstrate expertise in the area and relevant supervisions.**

Word count:

Must be no more than 300 words.

### Dissemination and impact

**Please indicate how you intend to disseminate your results. Please note that successful recipients are expected to present their findings at a scientific meeting (preferably the RACGP annual conference) within 2 years of commencing their project. Also describe the potential wider impact of your research. You could include the following domains: advancement of knowledge, clinical practice, community health, policy development, medical or health professional education.**

Word count:

Must be no more than 300 words.

### Ethical considerations

**Briefly discuss the ethical issues relevant to your research and the safeguards you will utilise to protect all participants, particularly in regard to matters of consent and confidentiality.**

### Training

**Briefly outline how undertaking this project will provide you or a member of the research team with research training, skills or experience. Be as specific as you can. You can include both formal (e.g. courses, structured supervision or mentoring) and informal opportunities (e.g. informal mentoring, access to experienced researchers with skills you want to learn).**

Word count:

Must be no more than 300 words.

### Capacity building

**Please demonstrate how the selection of the research team and the design of the project will build research capacity in general practice and in general practitioners.**

Word count:

Must be no more than 300 words.

### Literature review

**The literature review enables you to provide some background to your research and its significance. It places your research question into context. Items for discussion might include: why the research area is important; what previous research has been done on the topic; in what way the research question**

Word count:

Must be no more than 1000 words.

### Literature references

Maximum of 20 references

## Timelines and budget

### Timelines

**To complete this section, segment the study design into logical steps, describe the duration of each step and provide any supporting information to justify the total estimated project duration.**

Word count:

Must be no more than 200 words.

### Budget (GST Exclusive)

Provide an itemised budget in the tables below to justify the estimated time and resources. If this grant will only fund part of the costs of this research project, explain how the remaining resources will be attained. **Please exclude GST on all costs.** Budget should include secured funding, funding applied for, and for what the RACGP funds would be used.

The purpose of the funding is not to top up grants. Funds awarded may only be used for direct research costs (including project-related salaries and reasonable costs) and **not** for any overhead or management fees of administering organisations.

Section (c) of the budget may include allowance for travel costs associated with presenting the research findings at a scientific meeting (preferably the RACGP Annual Conference) within 12 months of the Final Report submission.

*Please do not use commas, eg. \$1000 (not \$1,000)*
